Stitching is my happy place – quilting, embroidery, dressmaking and fiddling with fabric!

Anmarie

I am happiest when I am knitting and crocheting.

I started knitting when I was 8 making striped tea cosies. I knitted my first jumper at age 10 and paid for most of the wool myself – it was kingfisher blue.

Fatima Nakhuda

Beautiful embroidery.

Sophia Kyprianou

Inspired by the Japanese culture of Sashiko and Boro sewing and the mindfulness of creativity.

My work is a journey and a representation of how making has and is supporting my mental health and wellbeing.

Jackie Dunkley

I like primary colours. Hand embroidery was a first for me.

I really enjoyed this project.

Indira

When I was 11 I made all these things. I did this kind of sewing in Tanzania, East Africa. Elephants (and tigers) come at night there.

Saarah Nakhuda

I like the beauty in the scenery and the structure of the building.

I love art.

'Cloud and Raindrops'

I went to a craft fair with friends, we sat near a stall that had a cloud and pom-pom mobile. I said I could make one better.

Pat gave me a crochet pattern and Siobhan gave me a rain drops crochet pattern, so I made the mobile for my daughter.

My square is felt.

The work was inspired by my favourite Disney character called Stitch, and my love of bright colour and sparkling things.

Reminds me of wedding celebrations and mehndi patterns.

Lata Rawal

Inspired by the 70's, flower power and watching the camper vans passing through narrow roads heading off to the mountains.
