CETIOSAURUS

Find out as much as you can about the Cetiosaurus skeleton by looking, reading and discussing what you see.

The Cetiosaurus is the largest object on display at Leicester Museum & Art Gallery!

How many times bigger than you do you think it is?

Does its size compare to any creatures from the modern world?

How does seeing this skeleton make you feel?
Excited? Scared?
Think of words to describe your emotions.

How much of the skeleton is real? Can you find out?
Look for the real bones and see if you can point them out.

This Cetiosaurus is also known as "Rutland the Dinosaur". Do you know why?

Look for clues to tell you what this dinosaur ate.
Discuss what you find out.

Has its size got anything to do with what it ate?

How do you think this dinosaur moved around?
Was it a fast mover or was it slow?
What clues give you your answer?

What sounds do you think it made?
Try them out!
